Javascript Assignment 6 (Practice Questions)

Usman Rizwan • 8:53 AM

100 points

Solve the following questions

• Write a loop to print numbers from 1 to 10.

• Write a loop to print even numbers from 1 to 20.

• Write a loop to print odd numbers from 1 to 15.

• Write a loop to calculate and print the factorial of a number (let's say 5).

• Write a loop to print the multiplication table of a number (let's say 7) up to 10.

• Write a loop to print the Fibonacci series up to the 10th term. (The Fibonacci sequence is a type series where each number is the sum of the two that precede it. It starts from 0 and 1 usually. The Fibonacci sequence is given by 0, 1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, 144, and so on.-10)

• Write a loop to find and print the sum of digits of a number (let's say 123).

Write a loop to print the reverse of a string (let's say "hello").

• Write a loop to print the square of numbers from 1 to 10.

• Write a loop to find and print the smallest element in an array (let's say [3, 7, 2, 9, 5]).
